ket Downward.

New York July 21.-There were various

every occasion to sell other stocks for the

purpose of realizing profits. This was effected without any notable damage to prices

owing to the judicious and careful manner in which the market was fed. In the last

half hour of the market, however, when it ecame known that arrangements had been

Effect of Coal Miners' Action.

The decision of the coal miners' conven-

The decision of the coal miners' convention against a general strike was anticipated with certainty, and the large buying of last week of the soft-coal carriers was on that account. The heavy realizing of the day was doubtless on the ground that all the good news concerning these stocks for the present has been published. Among Western railroads the active speculation shifted to Missouri Pacific, Atonison and St. Louis and Southwestern. Reports of weather favorable to the crops was the continuing influence upon these stocks, but it falled to affect the price of other stocks which would be equally benefited by good crops. Old rumors were revived of a closer relation between St. Louis Southwestern and Chicago and Eastern Illinois. The reports

New York, July 21.—Coffee—Spot Rio firm; No. I invoice 5%c; mild quiet; Cordova willing. The market opened irregular, with July 5 points lower and other months 5 to 10 points higher, after which the course was quite steadily upward on a scare of shorts to cover and persistent buil support from the clique. The foreign market news was about as expected. Yet the whole attention to the trade was devoted to watching the buil contingent, and as this element took a most aggressive turn a scamper to reach safer ground was made by the more conservative shorts. Trading was fairly active throughout the session. All differences were wiped out in the last half hour between the first seven months on the list. The close was firm, with prices net 10 to 20 per cent higher. Total sales, were \$5.000 bags, including July at \$1.0005 Sec. atus. 5.505 Sec. Sept. 5.356 Sec. Sept. 5.35

dividend were circulated. Dick Briss, bought about 15,600 shares Baltimore and Obio in the list bour. Wassermin Briss and A. H. Caspary were also buyers. Strength of Baltimore and Obio was coincident with that if Prancyllania, both deriving speculative interest from the generally credited reports of Reading control.

lemonstrations of strength in individual tocks to-day, but the sustaining force of these advances was taken advantage of on

made for a shipment of \$1.00.000 in gold to Europe by to-morrow's steamer, the whole market turned downward and closed active and easy. Not much was left of earlier gains in any case, and Pennsylvania, which was a very conspicuous leader of the early market, closed at a small net loss. The early strength of this stock was attributed to the supposed acquirement of control of Reading, but the other subsidiary companies failed to participate, Chesapeake and Ohio and Norfolk and Western being among the weak stocks for the day.
